## Acceptable Use Policy

### 1.0 Disruption to the service

You may not disrupt the Service. The Service may not be used to access or interfere with computer networking or telecommunications services of any customer, host or network, including, without limitation, denial of service attacks, flooding of a network, overloading a service, improper seizing and abuse of operator privileges and attempts to "crash" a host. The transmission or dissemination of any information or software that contains a virus or other harmful feature also is prohibited. You are solely responsible for the security of any device that you choose to connect to the Service, including any data stored on that device.

You shall not use a wireless device or personal access point which may in any way interfere with, or in any way reduce the quality of, the 4Wireless service by causing a reduction in signal strength or signal availability for other customers who use 4Wireless. ASK4 reserve the right to disable or restrict access by devices that are in breach of this term. A device that falls within this provision is one that is competing on the same radio frequency as 4Wireless (either 2.4Ghz or 5Ghz) and is preventing another customer from receiving a good quality 4Wireless service. ASK4 shall be the sole arbiter of any disputes arising under the provisions of this paragraph.

ASK4 reserve the right to impose transfer-limits on customers who regularly use the Service in an excessive fashion where such usage disrupts the service of other customers.

The Service is intended to be used for personal non-commercial purposes only within a single dwelling and on a single computer (save where the particular Service package the Customer subscribes to provides for access by multiple machines within a single dwelling). You shall not make the Service available to any third party by any means, and in particular but without prejudice to the generality thereof, by using any form of wireless access system, (but this provision shall not apply to anyone having a legitimate right to use 4Wireless). It is your responsibility to secure your own computer and systems so that third parties cannot gain access to the Service and use resources without your specific knowledge.

### 2.0 Inappropriate use

There may be content on the Internet or otherwise available through the Service which may be offensive to some individuals, or which may not be in compliance with all local laws, regulations and other rules. For example, it is possible to obtain access to content that is pornographic or offensive, particularly for children. ASK4 assumes no responsibility for the content contained on the Internet or otherwise available through the Service. You assume the risk of accessing content through the Service, and neither ASK4 nor any of its employees, agents or suppliers shall have any liability for any claims, losses, actions, damages, suits or proceedings arising out of or otherwise relating to access to such content. Content questions or complaints should be addressed to the content provider and not to ASK4.

You are solely responsible for any information that you publish on the Internet. You must ensure that the recipient of the content is appropriate. For example, you must take appropriate precautions to prevent minors from receiving inappropriate content. ASK4 and its employees reserve the right (but are under no obligation) to refuse to post or to remove any information or materials, in whole or in part, that it, in its sole discretion, deems to be offensive, indecent, or otherwise inappropriate regardless of whether such material or its dissemination is unlawful.

### 3.0 Intellectual Property Rights

The Service must not be used to access, host, share, copy or distribute unlawful material in any way and in particular but without prejudice to the generality thereof material that is protected by Copyright, Trademark, Registered Design Rights or any other recognised Intellectual Property Rights without the express permission of the holder of such rights by any means in particular but without prejudice to the generality thereof by peer-to-peer file sharing. You agree to indemnify ASK4 absolutely with regard to any liability arising in this respect. ASK4 reserve the right at its absolute discretion to limit access to services that in its opinion exist primarily or entirely for the purpose of sharing material in breach of Intellectual Property Rights. ASK4 reserve the right to discontinue the Service if you are in breach of this provision and to charge a re-connection fee in the event that ASK4 agrees in its absolute discretion to re-connect the Service.

#### 4.0 Legal obligations

By using the Service to reproduce, publish, display, transmit and distribute content, you are warranting that the content complies with this Policy and authorising ASK4 and its employees, agents and suppliers to reproduce, publish, display, transmit and distribute such content as necessary for ASK4 to deliver the content in a timely manner when required through legal processes.
